INSTRUCTIONS

Glue the tear-away stabilizer to the fabric on the wrong side.
Hoop the fabric together with the stabilizer.
Put it into the embroidery machine.
Embroider. When the machine sews the circuit, stop the machine.

INSTRUCTIONS

Spray glue the wrong side of the fabric and place it over the outline. The adhesive will help keep it in place while stitching. Apply Applique fabric over stitch outline. Run Tack Stitch to Keep applique fabric in place.

INSTRUCTIONS

Using small sharp scissors, cut the excess applique fabric away as close to the placement lines as you can, obviously without cutting the stitches.

INSTRUCTIONS

Remove stray threads and lint

Remove the hoop from your machine and clean up any long threads with scissors and remove any fabric or thread lint with a lint roller.
